

# Boom Bar

Kincaid Marine Rolco manufactures the most tough, user friendly and easy to install boom bar for your boat. Perfect for teaching beginners the basics of skiing to the most experienced barefooter wanting to nail their latest trick. With its adjustable height it will suit the tallest adult to the smallest child. Rolco Boom bars are made from the toughest material available and will add a fun and safe way to enjoy your favourite watersports.

## Features

- Black anodised, heat treated, marine grade aluminum for light weight, high strength, and corrosion resistance
- All stainless steel fittings and hardware
- Twin heavy duty plastic coated cables for strength and safety
- Easy height adjustment
- Fits any boat with centre ski pole without drilling any holes
- Easy to install and use
- Designed and used by 3 time world bare foot champion Brett Sands
