

# Gen III Chevrolet

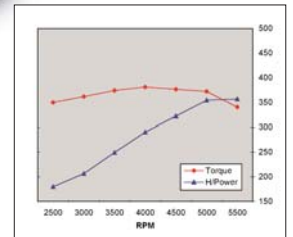

These engines are the latest technology, guaranteed to run silky smooth, produce tons of power and excellent fuel economy. The Gen III is also lightweight, environmentally friendly and a pleasure to use. Each engine comes run and tested with an Australia-wide three-year warranty.

**410HP  
6.0L**

**350HP  
5.3L**

## Features

- New firing order means less vibration and fatigue
- Coil per cylinder crank trigger ignition
- Sequential electronic fuel injection
- Alloy heads
- Roller camshaft
- Six bolt main bearings
- CNC billet steel flywheel
- 100-amp alternator
- Low oil pressure and overheat warning buzzer system
- High-speed crankshaft driven, brass body (no plastic) water pump means no belt, lots of water and easy servicing
- EFI can be diagnosed with any scan tool
- Full return to tank fuel system to ensure fuel rails are full of cool fresh fuel at all times. Totally eliminates fuel vapourisation that can be a problem with other systems
